S.N.	LAB TOPICS	DATE	SUBMITTED DATE	REMARKS
1	INTRODUCTION TO HTML	2026/04/30	2026/05/20	
2	LIST TAGS	2026/05/19	2026/05/24	
3	Hyperlink, srcset, imagemap	2026/06/05	2026/06/10	
4	Tables ,iframe and marquee	2026/06/12	2026/06/22	

Theory

1. Table Tag in HTML

The `<table>` tag is used to create tables in a web page. Tables organize data into rows and columns, making information easy to read and compare.

Common Table Elements:

- `<table>` – Defines a table.
- `<tr>` – Defines a table row.
- `<th>` – Defines a table header cell.
- `<td>` – Defines a table data cell.
- `<caption>` – Provides a title for the table.

Advantages of Tables:

- Organizes data systematically.
- Improves readability of tabular information.
- Useful for displaying records, schedules, and reports.

2. Iframe Tag in HTML

The `<iframe>` (Inline Frame) tag is used to embed another web page, document, video, map, or other content within the current web page.

Common Attributes:

- `src` – Specifies the URL of the embedded page.
- `width` – Sets the width of the frame.
- `height` – Sets the height of the frame.
- `title` – Provides a description of the iframe.

Advantages of Iframe:

- Displays external web pages within a page.
- Embeds videos, maps, and documents.
- Separates content into different frames.

3. Marquee Tag in HTML

The `<marquee>` tag is used to create scrolling text or images on a web page. The content can move horizontally or vertically.

Note: The `<marquee>` tag is deprecated in HTML5 and is generally replaced by CSS animations, but it is still used for educational purposes.

Common Attributes:

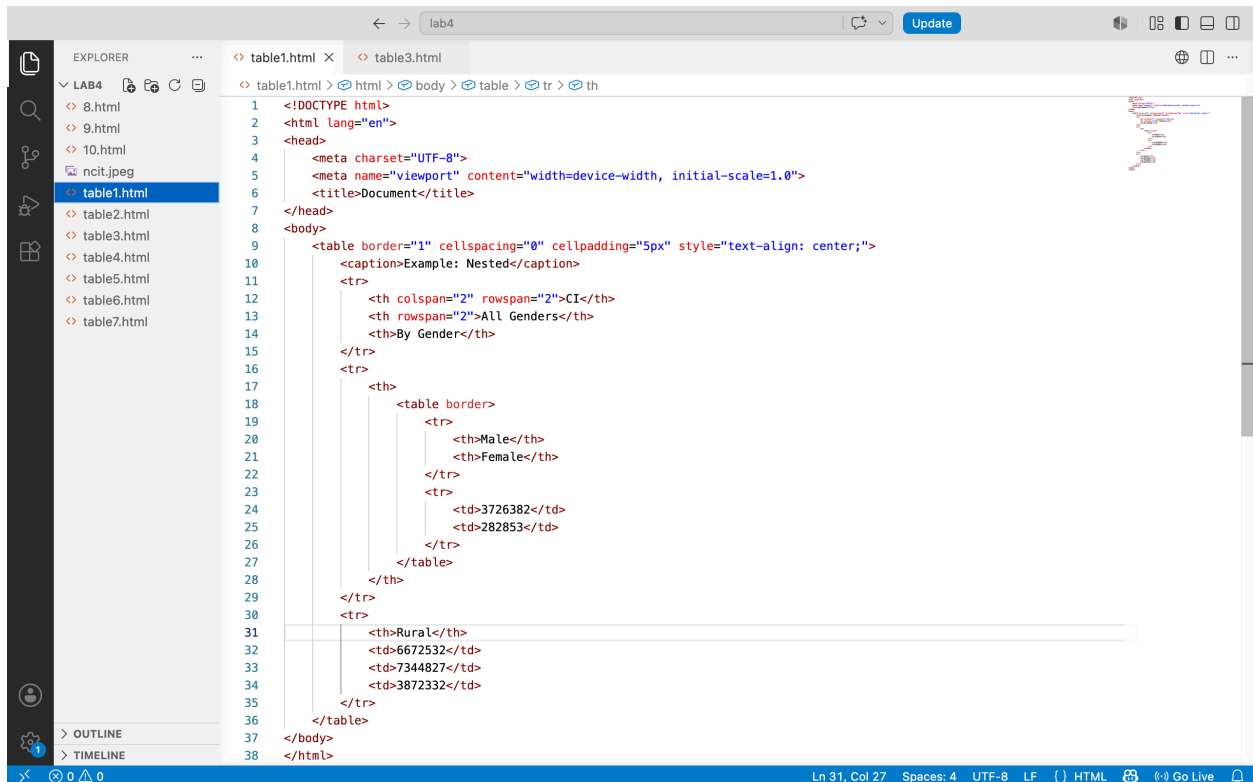

- `direction` – Specifies scrolling direction (left, right, up, down).
- `behavior` – Defines movement type (scroll, slide, alternate).
- `scrollamount` – Controls scrolling speed.

Advantages of Marquee:

- Attracts user attention.
- Displays announcements and notices.
- Creates simple animation effects.

The screenshot displays a web browser window with a table titled "Top 5 Richest People". The table has four columns: Name, Age, Residence, and Net Worth. The first row lists Jeff Bezos, and the second row lists Elon Musk. The browser's developer tools are open, showing the HTML source code of the table. The code uses a combination of inline styles and classes to format the table, including a red font color for the title and a specific font size for the names.

Name	Age	Residence	Net Worth
Jeff Bezos	61	Miami, Florida	\$220 Billion
Elon Musk
